TUF GAMING CASE GT301

ASUS TUF Gaming GT301 is a compact ATX mid-tower case with better thermal compatibility to support 360mm radiator front, up to 6 x 120mm fans and 160mm height CPU cooler. Accompanied with honeycomb design spread across the front of the chassis, GT301 provides unique aesthetic and ideal airflow. Embedded three 120mm AURA Addressable RGB fans and lighting control button at the front can show your style PC easily.

Perforated honeycomb design with Better Thermal

Compact ATX case with honeycomb front panel design allows more fresh in-take air and heat dissipation effect.

Show Off Lighting & System Build

4mm grey tempered glass window side panel and embedded three addressable RGB fan, end user can control lighting color and mode from IO panel or AURA Sync with motherboard.

Unique Headset Holder

The additional holder is easier to install while using headset, and able to move from left side to right side according to your PC system.

Front: front panel w/filter

Top: magnetic & removable filter

Bottom: removable filter

Dust Protection

Easy-to-clean dust filters are placed at the front, top and the base of the chassis.
