

BenQ QHD(WQHD) IPS Monitor GW2765HT

The idea of creating the perfect everyday monitor that meets your viewing needs for work and play is what created the GW2765HT. From the 27" extra big screen and 2560x1440 QHD(WQHD) high resolution to BenQ's advanced IPS Technology, 100% sRGB Screen Technology and HDMI multimedia interface, the GW2765HT is built to amaze your eyes with the finest detail precision and the most lifelike colors from virtually every angle whether you're enjoying the latest movie or reviewing documents from work. What's more, it's got the unique Low Blue Light design and Flicker-free Technology to keeps your eye at ease for longer viewing comfort and enhanced productivity!

Great Color Monitor with IPS Technology Panel & 100% sRGB

With the BenQ's advanced IPS Technology panel and 100% sRGB screen technology, every color is delivered with the finest precision in every detail and at every possible viewing angle. Get and share a professional viewing experience.

27" Big Screen and 2560x1440 QHD(WQHD) High Resolution

With a 2560x1440 QHD(WQHD) resolution you can enjoy over 77% more work space and higher ppi compared to conventional 1920x1080 FHD monitors. Having the extra working space means less scrolls for zooming in and out, and the higher ppi gives you a sharper and more precise viewing experience.

Low Blue Light Mode

Every Monitor produces a strain of blue spectrum light that is one of the critical causes of eye damage, eye strain, headaches and sleeping disorders. BenQ's unique Low Blue Light technology is designed to deal with the everyday problem of blue light exposure and allows a healthier time spent in front of your computer. Switch to one of the four preset Low Blue Light Modes from OSD hot key (Multimedia – 30% reduction, Web-surfing – 50% reduction, Office – 60% reduction, Reading – 70% reduction), and reward your eyes without having to lose the visual enjoyment. Corporate users are frequently required to read documents from a monitor. Reading Mode adjusts the screen brightness, contrast ratio and sharpness to make your eyes feel as easy as reading directly from hard copies without wasting any paper.

Flicker-free Backlight for Visual Pleasure

The GW2765HT is upgraded to eliminate flickering at all brightness levels, effectively reducing eye fatigue.

HDMI Multimedia Interface

The latest HDMI high-speed multimedia interface makes it incredibly convenient to connect the GW2765HT to your multimedia setup. Enjoy your digital entertainment effortlessly.
