GET WORK DONE.

THE WORLD'S FIRST FULLY RUGGED DETACHABLE LAPTOP.

The Toughbook 20 is the first fully rugged detachable PC with a removable keyboard that quickly transforms from a laptop into a fully functioning tablet with just one hand. At only 3.9 pounds, it's good on the go with a clever built in handle that also functions as a kickstand, a bridge battery that allows hot swappable battery replacement while running without disruption and the broadest range of ports and integrated options in its class. The Toughbook 20 display can be used with or without gloves and its sunlight-viewable 800 nit IPS display with direct bonding enables wider viewing angles and richer colors.

Please consult your reseller or Panasonic representative before purchasing.

[1] TPM 1.2 ships by default on m5-6Y57 model, but can run TPM2.0 – see below Microsoft link for details: support.microsoft.com/en-us/help/2920188/update-to-add-support-for-tpm-2.0-in-windows-7-and-windows-server-2008-r2.

[2] Tested by national independent third party lab following MIL-STD-810G Method 516.6 Procedure IV for transit drop test and IEC 60529 Sections 13.4, 13.6.2, 14.2.5 and 14.3 for IP65. 461F requires CF-AA5713AM.

[3] 1GB = 1,000,000,000 bytes. Total usable memory will be less depending upon actual system configuration.

[4] Barcode, Serial (true) and 2nd USB 2.0 Port are mutually exclusive.

[5] Magstripe, Serial, 2nd USB or Barcode+Insertable SmartCard integrated options increase overall height and prohibit use in convertible mode.

[6] Dedicated GPS and 4G LTE are mutually exclusive.

[7] Battery performance features such as charge time and life span can vary according to the conditions under which the computer and battery are used. Battery operation and recharge times will vary based on many factors, including screen brightness, applications, features, power management, battery conditioning and other customer preferences. Battery testing results from MobileMark 2014 at 150 nit.

[8] Requires software and activation to enable theft protection.

[9] Magstripe, Insertable SmartCard, Contactless SmartCard and Fingerprint Readers are mutually exclusive.

[10] Includes tablet and keyboard with handle. Tablet when detached is 10.7" (L) x 7.7" (W) x 0.6" (H).

[11] Includes tablet and keyboard with handle. Tablet when detached is 2.1 lbs. Optional 2nd battery weighs 0.4 lbs.

[12] Accessories and Integrated Options may vary depending on your configuration. Visit the Panasonic website for more accessories and details.
